

FLU VACCINATION 2020

Request your
CHG Onsite Influenza Vaccination
Program today!

Flu Vaccine available from March 2020

The 2019 Flu Season hit SA early with devastating results. Over 26,000 diagnosed cases and 105 South Australian lives lost.#

SA Health chief medical officer and chief public health officer Professor Paddy Phillips said the community should heed the message after the deaths.

“That is a real message to the community to please go out and get protected by getting a flu shot,” he said.

An influenza program is a proactive investment in the health and wellbeing of your workforce and your business.

The 2020 Quadrivalent Flu Vaccination protects against 4 strains including 2A strains and 2B strains indicated by research as most likely to spread and cause illness among Australians during the upcoming flu season.

* Fee is for metropolitan locations between 6am and 6pm. Minimum cost per work site visit is \$270 plus GST. Additional fees apply for country and regional locations and bookings outside standard hours.

† Time onsite is based on an average of 25 vaccinations per hour.
