Course Overview

In the interest of a safe working environment, many organisations conduct drug and alcohol screening in their workplace.

Australian Standards for urine and oral fluid collection require that all workplace personnel who conduct drug and alcohol screening must possess a Statement of Attainment for this course.

Participants will leave this one day program with the following knowledge and skills:

- Knowledge of the legislation relevant to drug and alcohol screening and fitness for work.
- An understanding of the elements of an effective policy, procedures and workplace substance abuse program.
- An understanding of the classes of drugs and their effect on human function and safety at work.
- An understanding of the various options for drug and alcohol screening, and the pros and cons of each.
- Practical skills in undertaking drug and alcohol screening, including urine testing and oral fluid (saliva) testing.
- Clear, take-away guidelines to establish a new drug and alcohol testing program or to review an existing program.

Upon successful completion of this course, participants will be awarded with a Statement of Attainment issued by Morrissey Training.

Morrissey Training and Consulting

CHG provides this training under an agreement with Registered Training Organisation Morrissey Training and Consulting (RTO No. 30929). Morrissey Training, issuing RTO, encourages previous learners to consider re-attendance biennially to maintain currency.

Private Engagement Training is available upon request, contact the Training Unit for more information:
